PROFESSIONAL SUMMARY

Computer Science graduate with hands-on experience in data analytics, business intelligence, data modeling, and machine learning. Skilled in Python, SQL, and Power BI, with experience developing projects in data warehousing, fraud analytics, and natural language processing. Seeking an entry-level Data Analyst, BI Analyst, or Data Engineer role.

EDUCATION

ILOILO SCIENCE AND TECHNOLOGY UNIVERSITY

July 2026

Bachelor of Science in Computer Science, Cum Laude

Related Coursework: Data Structures & Algorithms, Database Systems, Data Analytics, Data Science, Machine Learning, Artificial Intelligence, Statistics, Software Engineering

RELEVANT EXPERIENCE

GoveSmart Solution, Inc.

Feb 2026 – Apr 2026

Web Developer Intern

- Completed a 300-hour On-the-Job Training Program with hands-on experience in a professional development environment.
- Contributed to web development tasks while applying technical problem-solving, collaboration, and development workflows.

PROJECTS

DISTRIBUTION ANALYTICS DATA WAREHOUSE & BI REPORTING

April 2026

Python · Pandas · SQL Server · Power BI · DAX · Dimensional Modeling

- Built a Kimball-style data warehouse for AdventureWorks sales and returns using Python and SQL Server.
- Developed a Power BI dashboard to analyze sales, profit, returns, and distribution trends.

FINANCIAL FRAUD DETECTION & RISK INTELLIGENCE

May 2026

Python · Pandas · SQL Server · Power BI · DAX · Dimensional Modeling

- Processed 590,540 transactions and engineered features for fraud and risk analysis.
- Designed a transaction-focused data model and Power BI dashboard to analyze fraud patterns and risk drivers.

A Weighted Ensemble Approach to Semantic Similarity Using TGD

March 2026

Python · NLP · TF-IDF · GloVe · DeBERTa-v3-base · Ridge Regression · scikit-learn · Hugging Face Transformers

- Developed a weighted ensemble combining TF-IDF, GloVe, and DeBERTa for semantic similarity prediction.
- Used Ridge Regression to combine similarity features and evaluated performance using correlation metrics.

AutoTax AI - BIR Form 2316 Assistant

May 2025

Python · Generative AI · API Integration

- Developed an AI-assisted prototype for guiding users through BIR Form 2316 completion.
- Combined conversational assistance, document processing, and automated form generation.

TECHNICAL SKILLS

Programming: Python, SQL, JavaScript, HTML, CSS
Data Analysis: Pandas, NumPy, Excel, DAX
Data Engineering: ETL, Data Modeling, Data Warehousing
Visualization: Power BI, Matplotlib, Seaborn
ML & AI: scikit-learn, NLP, Hugging Face Transformer
Tools & Platforms: Git, GitHub, VS Code, Jupyter & Colab Notebooks

CERTIFICATIONS

DataCamp - Data Science & Analytics Coursework
14 courses in Python, data analysis, visualization, and ML.
AI, Machine Learning & Deep Learning
Certificate of Participation | September 2023
CHED RAISE 2026
Certificate of Participation | February 2026
